BESPOKE MENUS

We can also create bespoke menus for larger group bookings as well as private events for the whole space. These are a little more intimate, where clients want something a little more personalised to them and their guests. The same principles still apply - seasonality and the best possible produce will dictate the menu and the wine pairings. If you wish to hire the restaurant for a private event, or would like us to cater at an external site, we can create a beautiful bespoke menu for any occasion!
